**“You want to be an intellectual? Then you must resist. Otherwise you and your education are useless.”**

## **Salam!**

Thank you for attending our event on 10-25-2023. This is a list of resources for keeping up with current events in Palestine and international solidarity actions. We hope this list is useful in organizing our own local actions, as our education is incomplete without its application to our liberation struggle.

## The Mapping Project

1. Link: <https://mapliberation.org>
2. Description: The Mapping Project is a tool described on their site as follows
  1. “Our interactive map illustrates some ways in which institutional support for the colonization of Palestine is structurally tied to policing and systemic white supremacy here where we live, and to US imperialist projects in other countries. Our map also shows the connections between harms such as privatization and medical apartheid, which are often facilitated by universities and their corporate partners. Since local universities engage in these multiple forms of oppression and produce much of the ruling class, and because they are major land holders in our area, we've emphasized the university as a central nexus that ties together many of the harms traced on the map.”
  3. This is an excellent tool to determine which entities are causing most harm to our community and how those entities are linked together.
  4. If you're nerdy like us and have interest in further reading on the mathematics behind the project, further reading can be found here:

## Palestine Action

1. Link: <https://www.palestineaction.org>
2. Description: Palestine Action originated in the UK with a goal of shutting down Elbit, one of the largest weapons manufacturers for the IOF.
  1. They have successfully shut down multiple offices and have begun targeting media offices as well. They have recently expanded and started a US group and are an excellent example of disruptive and effective methods of protest.
  2. For those with lower risk tolerance but still want to support: their website has links to sign up for online workshops (you don't need to be a member/activist to sign up) and links to donate to support their actions.

## Instructions to print - RNN Media Guide:

- 1) Download the attached PDF.
- 2) Open the guide, and select "Print."
- 3) Select double-sided printing.
- 4) Fold the guide into three equal sections. The section that reads "MEDIA GUIDE" is the front page. The QR code should be on the back of your pamphlet.
- 5) Distribute, share, discuss.

Palestinians are Palestinian: "Arab Israeli" is an offensive label and should not be used. It erases Palestinian identity and confuses Palestinians with "Mizrahi" and Sephardic settlers. "Palestinian citizens of Israel" is often intentionally used to whitewash the Zionist regime as seemingly democratic, when Palestinians who are occupied often face constant harassment, policing, and exploitation. It is important to note that Palestinians are unified across religious, ethnic, and usage of skin-tone identity is irrelevant. One must also be careful of terminology in the West, as "American" serves as a compliance mechanism in the West while "American" across generations.

Interview and center Palestinian voices as a priority since Palestinians are often taken for by insidious actors.

**Section 6: Normalization, Humanitarianism, and Safety**  
Normalization means recognizing or engaging with the Zionist entity in any form.

Normalization is treasonous and any suggestion of engaging with Zionists is considered normalizing the abuser.

Organizations may claim a humanitarian approach but must be examined for their funders, as many who claim to uphold Palestinian life do so to identify vulnerable Palestinians to exploit them. Organizations under the umbrella of New Israel Fund and Foundation for Middle East Peace must be referenced carefully with this in mind, as they often reflect normalization agendas.

Be mindful of safety for Palestinians in the West should they be interviewed, as they are constantly surveilled, threatened, and blacklisted for any expression. Offer to allow anonymous positions, to blur out their photos, or to use false names to keep them safe from harassment and threats.

Be mindful of photos and video from actions and protests as these are often leveraged against Palestinians when they return to Palestine, when applying for jobs or schools, and even when trying to purchase homes. Seek permission before you photograph from organizers or individuals and provide avenues of safety.

**"Never spread the occupation's propaganda, and do not contribute to instilling a sense of defeat. This must be focused on, for soon, we will start talking about a massive invasion in Beit Lahlia and Al-Nusseirat, for example. Never spread panic; be supportive of the resistance and do not spread any news broadcast by the occupation (forget about the ethics and impartiality of journalism; just as the Zionist journalist is a fighter, so are you)."**

The Resistance News Network shares collaborative and unified guidance by Palestinian grassroots media organizers to leaders, organizations, media outlets, as well as organizations and individuals standing in solidarity to critically and accurately convey a consistent line regarding the current events in occupied Palestine.

This undertaking is in response to requests from industry reporters, editors, and producers who are seeking resources and authentic Palestinian perspectives. Industry reporters have access to a list of Palestinian sources, and these are underutilized for clear reasons of slanted propaganda. Hence if the below are not conveyed in the coverage of events in occupied Palestine, it is safe to ascertain the positionality of that media platform. This is not an exhaustive list of guidelines and resources, and RNN expects these recommendations to evolve as events evolve.

"Palestinian citizens of israel" is often intentionally used to whitewash the zionist regime as seemingly democratic, when Palestinians who are occupied often face constant harassment, policing, and exploitation. It is important to note that Palestinians are unified across religion and region, and usage of skin-tone identity is typically a Western framing. One must also be careful of how they label a Palestinian in the West, as "American-Palestinian" is not chosen and serves as a compliance label to imperialism. Palestinians are not in the West willingly, and their aspiration to return home, across generations, is important to respect in any interview.

Interview and center Palestinians on the ground as a priority since Palestinians are often spoken over or spoken for by insidious actors.

## **Section 1: Operation Al-Aqsa Flood and the Broader Context**

**Remember the broader context of Operation Al-Aqsa Flood** as an event that manifested from prior conditions, namely, that: it comes from the Joint Operations Room in Gaza that is composed of many different factions, religions, and political ideologies yet united in principles of liberation, goals, and tactics. This Joint Operations Room is accountable to a transnational formation called the Unity of the Fields. The conditions of Gaza and all Palestinians in the camps throughout the West Bank, Lebanon, Syria, and Jordan, as well as those exiled, is manifested by over a century of settler colonialism that the United Kingdom and the United States have supported alongside NATO, the European Union, and others.

**The Joint Operations Room has constantly warned** against zionist violence, abduction of hostages, sieges, murder, and other atrocities for years now that have afflicted people throughout occupied Palestine, while the Unity of the Fields has amplified these warnings as people in Lebanon, Syria, Iraq, Iran, Armenia, and elsewhere have also been attacked by zionists. Despite these warnings, zionist leaders have continued their violent aggressions.

## **Section 2: Palestinian Liberation and the Zionist Entity**

**Anti-zionism means the dismantlement of the zionist entity.** Anti-zionism does not mean post zionism, or that the “two sides” are “equal.” It is never over until imperialism is over. It is not over until all land, from the river to the sea, has been returned to the indigenous Palestinians and the occupation has been totally dismantled. It is never over until imperialism is over.

**It is referred to as the zionist entity or "israel",** because it is a colony. The name of Palestine and all of the Palestinian villages are the permanent names and will never be erased. This is how Palestinians refer to their ancestral lands and villages after zionists ethnically cleansed the area in 1948.

**The zionist entity encourages and rewards settlements** with the support of the US, Europe, Ukraine, and elsewhere despite warnings from the Joint Operation Room, with even the U.S. issuing soft statements of staged accountability to the degenerate terms of the Oslo concessions, against the implications of settlement expansion. To Palestinians, the entirety of the zionist entity is a settlement.

### **Equality is NOT the cause of Palestinian liberation.**

There is no potential equality between the colonized and colonizer. The Palestinian liberation movement seeks the complete return of ancestral homeland and the return of its people to this land. Palestinians do not view this as a movement of “equality,” or ending "apartheid". Liberal zionists and their lobbies hope Palestinians buy into this agenda but it is wholly rejected.

**The zionist entity currently holds over 5,000 hostages** in the occupation prisons, including women and children. It tortures them, abuses them, sexually assaults them, withholds medical treatment, trials experimental substances on them, and is slowly murdering them.

## **Section 3: Understanding Resistance**

**The resistance of Palestinians against violent settler colonialism is valid and it is not the role of any journalist or figure to decry this response, but rather to understand its manifestations.** The right to resist via armed struggle is enshrined in international law (UN Res 45/130). However, it does not need Western law nor institutions for validation as this only centers the role of empire, colonialism, and capitalism. The Palestinian movement for liberation is against these institutions. This movement for self autonomy is inherent to the years long strategic formation of the Joint Operations Room in Gaza, the grassroots resistance throughout the occupied West Bank, the mobilization of Palestinians in historical occupied Palestine, and Palestinians everywhere.

**This is NOT a sudden war.** This is a long and steadfast resistance movement against settler colonialism: The resistance has been consistent since the British invasion of Palestine and onward against settler colonialism.

**The Palestinian Authority is not an official government and does not represent the people.** It is a product of US imperialism and the conciliatory Oslo Accords.

## **Section 4: Settler Colonialism and Accountability**

**"Israelis" are only victim to their own supremacist free-will and bad choices:** All "israelis" are settlers and as settlers they partake in the risks associated to stealing land and resources. There is no such thing as an innocent settler. Zionists often have dual citizenship and easily enjoy access to the United States, while people in Gaza and the West Bank are trapped behind partition walls, military watchtowers, and surveillance mechanisms. All zionists, with very few exceptions, must serve.

## **Section 5: Media Framing and Engagement**

**Framing this as Hamas-"israel" is intentional to lend towards Islamophobic campaigns,** which currently have resorted to calling Palestinians "barbaric" and "terrorists," terms that have been used against Palestinians and Arabs throughout their resistance journey. The revival of these terms is indicative of colonial insecurity to frame the native Palestinian as a caricature. The resistance is shoulder to shoulder, from Marxist to Islamist factions, responding to the call of Al-Qassam Brigades' commander-in-chief Mohammed Deif.

**Refuse "both sides" framing, because this is a severe power and resource imbalance.** Zionists have nuclear capabilities and space weaponry and have been gladly selling and sharing this with other repressive movements around the world.

### **Framing the victim must center settler colonialism:**

Cries of victimhood from zionists and their apologetic allies often arise from their own internal contradictions. A sound journalist must explore these contradictions, whether related to class, identity, or other forms of self interest.

### **Framing the hero must center settler colonialism.**

**This has never been a "holy war."**

### **Los palestinos son palestinos:**

"Árabe israelí" es una etiqueta ofensiva y no debe ser usada. Borra la identidad palestina y confunde a los palestinos con los colonos "Mizrahi" y sefardíes. "Ciudadanos palestinos de Israel" a menudo se usa intencionadamente para maquillar al régimen sionista como aparentemente democrático, cuando los palestinos ocupados a menudo enfrentan acoso constante, vigilancia y explotación. Es importante señalar que los palestinos están unificados a través de la religión y la región, y el uso de la identidad basada en el tono de piel es típicamente un enfoque occidental. También hay que tener cuidado de cómo se etiqueta a un palestino en Occidente, ya que "Palestino-Americano" no es una elección y sirve como etiqueta de conformidad al imperialismo. Los palestinos no están en Occidente voluntariamente, y su aspiración de regresar a casa, a través de generaciones, es importante respetar en cualquier entrevista. Entreviste y centre a los palestinos en el terreno como una prioridad, ya que a menudo se habla por encima de ellos o en su nombre por actores insidiosos.

### **Sección 6: Normalización, Humanitarismo y Seguridad**

La normalización significa reconocer o relacionarse con la entidad sionista en cualquier forma. La normalización es traicionera y cualquier sugerencia de interactuar con sionistas se considera normalizar al abusador. Las organizaciones pueden reclamar un enfoque humanitario pero deben ser examinadas por sus financiadores, ya que muchos que afirman defender la vida palestina lo hacen para identificar a palestinos vulnerables para explotarlos. Las organizaciones bajo el paraguas del New Israel Fund y la Foundation for Middle East Peace deben ser referenciadas cuidadosamente con esto en mente, ya que a menudo reflejan agendas de normalización.

**Sea consciente de la seguridad de los palestinos** en Occidente si son entrevistados, ya que son constantemente vigilados, amenazados y puestos en listas negras por cualquier expresión. Ofrezca permitir posiciones anónimas, desenfocar sus fotos o usar nombres falsos para mantenerlos a salvo de acoso y amenazas. Sea consciente de las fotos y videos de acciones y protestas, ya que estos a menudo se utilizan en contra de los palestinos cuando regresan a Palestina, al solicitar empleos o escuelas, e incluso al intentar comprar casas. Busque permiso antes de fotografiar a organizadores o individuos y proporcione opciones de seguridad.

**"Nunca difundas la propaganda de la ocupación, y no contribuyas a instaurar un sentimiento de derrota. En esto debemos centrarnos, porque pronto empezaremos a hablar de una gran invasión en Beit Lahia y Al-Nusseirat, por ejemplo. Nunca propagues el pánico; apoya a la resistencia y no difundas ninguna noticia emitida por la ocupación (olvida la ética e imparcialidad del periodismo; así como el periodista sionista es un combatiente, tú también lo eres)."**

**BASIL AL-ARAJ**

La **Red de Noticias de la Resistencia** comparte esta guía colaborativa y unificada, creada por organizadores mediáticos palestinos a nivel de base, dirigida a líderes, organizaciones, medios de comunicación, así como organizaciones e individuos que muestran solidaridad, con el fin de transmitir de manera crítica y precisa una postura consistente con respecto a los eventos actuales en Palestina ocupada.

Esta iniciativa surge en respuesta a las solicitudes de periodistas, editores y productores de la industria que buscan recursos y perspectivas palestinas auténticas. Los reporteros de la industria tienen acceso a una lista de fuentes palestinas, y estas son subutilizadas por claras razones de propaganda sesgada. Por lo tanto, si lo siguiente no se refleja en la cobertura de los eventos en Palestina ocupada, es seguro determinar la posición de esa plataforma mediática. Esta no es una lista exhaustiva de directrices y recursos, y RNN espera que estas recomendaciones evolucionen a medida que los eventos lo hagan.

## **Sección 1: Operación Inundación Al-Aqsa y el Contexto General**

**Recuerda el contexto general de la Operación Inundación Al-Aqsa** como un evento que se manifestó a partir de condiciones previas, es decir, que: proviene de la Sala de Operaciones Conjuntas en Gaza que está compuesta por muchas facciones diferentes, religiones e ideologías políticas, pero unidas en principios de liberación, objetivos y tácticas. Esta Sala de Operaciones Conjuntas rinde cuentas a una formación transnacional llamada Unidad de los Campos. Las condiciones de Gaza y de todos los palestinos en los campos de Cisjordania, Líbano, Siria y Jordania, así como los exiliados, son el resultado de más de un siglo de colonialismo de colonos que el Reino Unido y Estados Unidos han apoyado junto con la OTAN, la Unión Europea y otros.

**La Sala de Operaciones Conjuntas ha advertido constantemente** contra la violencia sionista, el secuestro de rehenes, asedios, asesinatos y otras atrocidades durante años que han afectado a las personas en toda Palestina ocupada, mientras que la Unidad de los Campos ha ampliado estas advertencias ya que personas en Líbano, Siria, Iraq, Irán, Armenia y otros lugares también han sido atacadas por sionistas. A pesar de estas advertencias, los líderes sionistas han continuado sus agresiones violentas.

## **Sección 2: Liberación Palestina y la Entidad Sionista**

El antisionismo significa el desmantelamiento de la entidad sionista. Antisionismo no significa post-sionismo, ni que las "dos partes" sean "iguales". No termina hasta que el imperialismo termine. No termina hasta que toda la tierra, desde el río hasta el mar, haya sido devuelta a los palestinos indígenas y la ocupación haya sido totalmente desmantelada. No termina hasta que el imperialismo termine. Se refiere a él como la entidad sionista o "israel", porque es una colonia. El nombre de Palestina y todos los pueblos palestinos son los nombres permanentes y nunca serán borrados. Así es como los palestinos se

refieren a sus tierras y pueblos ancestrales después de que los sionistas limpiaran étnicamente el área en 1948.

La Autoridad Palestina no es un gobierno oficial y no representa al pueblo. Es un producto del imperialismo estadounidense y los conciliatorios Acuerdos de Oslo.

### **Sección 3: Entendiendo la Resistencia**

La resistencia de los palestinos contra el violento colonialismo de colonos es válida y no es el papel de ningún periodista o figura condenar esta respuesta, sino más bien entender sus manifestaciones. El derecho a resistir a través de la lucha armada está consagrado en el derecho internacional (Resolución de la ONU 45/130). Sin embargo, no necesita la ley occidental ni las instituciones para su validación, ya que esto solo centra el papel del imperio, el colonialismo y el capitalismo. El movimiento palestino por la liberación está en contra de estas instituciones.

Este movimiento por la autonomía propia es inherente a la formación estratégica de años del Centro de Operaciones Conjuntas en Gaza, la resistencia de base en toda Cisjordania ocupada, la movilización de los palestinos en la Palestina históricamente ocupada y los palestinos en todas partes.

Esto NO es una guerra repentina. Es un movimiento de resistencia largo y firme contra el colonialismo de colonos: La resistencia ha sido constante desde la invasión británica de Palestina y continúa en adelante contra el colonialismo de colonos

### **Sección 4: Colonialismo de Colonos y Responsabilidad**

Los "israelíes" solo son víctimas de su propio supremacismo y malas decisiones: Todos los "israelíes" son colonos y, como colonos, participan en los riesgos asociados con el robo de tierras y recursos. No existe tal cosa como un colono inocente. Los sionistas a menudo tienen doble ciudadanía y disfrutan fácilmente del acceso a Estados Unidos, mientras que las personas en Gaza y Cisjordania están atrapadas detrás de muros de separación, torres de vigilancia militar y mecanismos de vigilancia. Todos los sionistas, con muy pocas excepciones, deben servir.

### **Sección 5: Enfoque Mediático y Compromiso**

Enmarcar esto como Hamas-"Israel" es intencionado para inclinarse hacia campañas islamofóbicas, que actualmente han recurrido a llamar a los palestinos "bárbaros" y "terroristas", términos que se han utilizado contra los palestinos y árabes a lo largo de su viaje de resistencia. La reactivación de estos términos indica una inseguridad colonial para enmarcar al palestino nativo como una caricatura. La resistencia es codo a codo, desde facciones marxistas hasta islamistas, respondiendo al llamado del comandante en jefe de las Brigadas Al-Qassam, Mohammed Deif.

Rechaza el enfoque de "ambos lados", porque hay un grave desequilibrio de poder y recursos. Los sionistas tienen capacidades nucleares y armamento espacial y han estado vendiendo y compartiendo esto con otros movimientos represivos en todo el mundo.

El enfoque hacia la víctima debe centrarse en el colonialismo de colonos: Los gritos de victimismo de los sionistas y sus aliados apologeticos a menudo surgen de sus propias contradicciones internas. Un

periodista sólido debe explorar estas contradicciones, ya sean relacionadas con la clase, la identidad u otras formas de interés propio.

El enfoque hacia el héroe debe centrarse en el colonialismo de colonos. Esto nunca ha sido una "guerra santa".

# DID YOU KNOW?

RNN IS A LENS INTO THE ONGOING LIBERATION STRUGGLE THAT SEEKS TO LIBERATE THE LAND OF SETTLERS, TRAITORS, AND THREATS TO LIBERATION.

THE RIGHT TO RESIST VIA ARMED STRUGGLE IS ENSHRINED IN LAW. COLONIZED PEOPLES REQUIRE UNQUESTIONABLE AND UNCONDITIONAL SUPPORT TO FIGHT FOR THEIR RIGHTS, REGARDLESS OF WHAT INTERNATIONAL LAW DICTATES.

PALESTINIANS HAVE BEEN RESISTING SINCE BEFORE THE NAKBA OF 1948, AND THEY CONTINUE TO RESIST.

### THE EVOLUTION OF RESISTANCE

Armed, united brigades like the Lions' Den and Jenin Brigade carry out resistance activity daily across Palestine (Jenin, Nablus, Tulkarem, Ramallah, Bethlehem, Al-Khalil, and elsewhere), targeting colonial checkpoints and settlers. Driven by their love for liberation and dignity, these groups have massively expanded since the Unity Intifada of 2021; a new model of resistance has emerged characterized by blurred factional lines, self-sacrifice, and commitment to national values.

### UNITY MEANS LIBERATION:

Palestinian resistance factions are more unified than ever through the Joint Operations Rooms in Gaza and Jenin. Today, they wage the struggle for liberation under the Palestinian flag first, coordinating joint armed and rocket attacks on zionist settlements. The fields have united, with Gaza, the West Bank, the occupied interior, the refugee camps in Syria and Lebanon, and the diaspora at large confronting zionism and the occupation as one heart.

### ARMED RESISTANCE IS INCREASING:

As zionist aggression escalates, so too does the desire for Palestinians to live with freedom and dignity on their liberated homeland from the river to the sea. Shooting operations have quadrupled since 2021, owing to the new model of resistance forged in the West Bank working hand-in-hand with Gaza. Over 2,300 rockets have been launched from all fronts since last year.

### CRACKS IN THE FRAGILE ENTITY:

As a consequence of heightened resistance, billions of dollars have been withdrawn from the zionist entity in the last six months. Settlers and investors no longer believe in the future of zionism. Hundreds of thousands have left and plan to never settle in Palestine again. Zionist applications for foreign passports have skyrocketed 10-30% this year. The zionist entity continues to fracture under the weight of its own contradictions.

### DIASPORIC RESISTANCE:

Direct action from Palestinians and allies abroad, such as by Palestine Action, has led to the closure of multiple zionist weapons factories and a five-year-low in Elbit's stock price. Rocket fire from Lebanon and Syria to support resisting Palestinians in Palestine reaffirms the unity of the fields. Cyberattacks targeting the entity from outside have significantly increased.

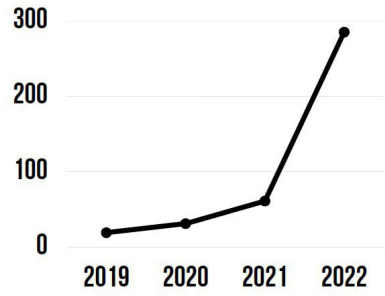

### THE COMPRADOR ENEMY:

The US- and zionist-backed Palestinian Authority has escalated its efforts to repress the growing resistance. Despite these efforts, the resistance grows daily, proving that no normalizing and traitorous "security summits" can halt the indomitable tide of liberation.

### MORE THAN JUST "APARTHEID":

The liberation struggle seeks to end the zionist settler-colonial project of "israel." We are not satisfied with co-existence or ending "apartheid," a symptom of settler colonialism. Ending apartheid does not mean ending occupation. Liberate the land, from the river to the sea!

SHOOTING OPERATIONS: 285 IN 2022.

RNN ES UNALENTE EN LA LUCHA DE LIBERACIÓN EN CURSO QUE BUSCA LIBERAR LA TIERRA DE LOS COLONOS, TRAIDORES Y AMENAZAS A LA LIBERACIÓN

EL DERECHO A RESISTIR MEDIANTE LA LUCHA ARMADA ESTÁ CONSAGRADO POR LA LEY. LOS PUEBLOS COLONIZADOS NECESITAN UN APOYO INCUESTIONABLE E INCONDICIONAL PARA LUCHAS POR SUS DERECHOS, INDEPENDIENTEMENTE DE LO QUE DICTE EL DERECHO INTERNACIONAL. LXS PALESTINXS LLEVAN RESISTIENDO DESDE ANTES DE LA NAKBA DE 1948, Y SIGUEN RESISTIENDO.

**LA EVOLUCIÓN DE LA RESISTENCIA:**

Brigadas armadas y unidades como Lions' Den y la brigada de Jenin llevan a cabo actividades de resistencia diariamente por toda Palestina (Jenin, Nablus, Tulkarem, Ramallah, Bethlehem, Al-Khalil y otros lugares), dirigidas contra los checkpoints y los colonos. Impulsados por su amor por la liberación y la dignidad, estos grupos se han expandido masivamente desde la Intifada de la Unidad (2021); ha surgido un nuevo modelo de resistencia caracterizado por la difuminación de las líneas faccionales, el autosacrificio y el compromiso con los valores nacionales.

**LA UNIDAD SIGNIFICA LIBERACIÓN:**

Las facciones de la resistencia palestina están más unidas que nunca a través de las Salas de Operaciones Conjuntas de Gaza y Jenin. Hoy libran la lucha por la liberación bajo la bandera palestina en primer lugar, coordinando ataques conjuntos armados y con cohetes contra los asentamientos sionistas. Los campos se han unido, y Gaza, Cisjordania, el interior ocupado, los campos de refugiados en Siria y Líbano, y la diáspora en general se enfrentan al sionismo y a la ocupación como un solo corazón.

**AUMENTA LA RESISTENCIA ARMADA:**

A medida que aumenta la agresión sionista, también aumenta el deseo de lxs palestinxs de vivir con libertad y dignidad en su patria/liberada desde el río hasta el mar. Los tiroteos se han cuadruplicado desde 2021, debido al nuevo modelo de resistencia forjado en Cisjordania que trabaja codo con codo con Gaza. Desde el año pasado se han lanzado más de 2.300 cohetes desde todos los frentes.

**GRIETAS EN LA FRÁGIL ENTIDAD SIONISTA:**

Como consecuencia del aumento de la resistencia, se han retirado miles de millones de dólares de la entidad sionista en los últimos seis meses. Colonos e inversores ya no creen en el futuro del sionismo. Cientos de miles han abandonado y planean no establecerse nunca más en Palestina. Las solicitudes de pasaportes extranjeros por parte de los sionistas se han disparado entre un 10 y un 30% este año. La entidad sionista continúa fracturándose bajo el peso de sus propias contradicciones.

**RESISTENCIA DIASPÓRICA:**

La acción directa de palestinxs y aliadxs en el extranjero, como la de Palestine Action, ha provocado el cierre de múltiples fábricas de armas sionistas y la caída en cinco años del precio de las acciones de Elbit. El lanzamiento de cohetes desde Líbano y Siria para apoyar a lxs palestinxs que resisten en Palestina reafirma la unidad de los campos. Los ciberataques dirigidos a la entidad desde el exterior han aumentado significativamente.

**EL ENEMIGO COMPRADOR:**

La Autoridad Palestina, respaldada por Estados Unidos y los sionistas, ha intensificado sus esfuerzos para reprimir la creciente resistencia.
